

How to Draw Spiderweb

Let's start!
First, draw a cross. Make sure the lines cross right in the middle.

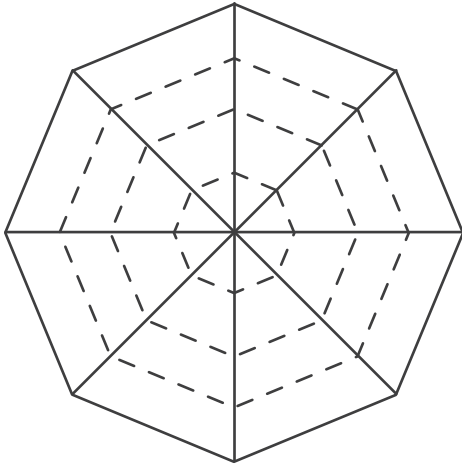

Now draw an X

Now, draw an octagon that connects all the lines.

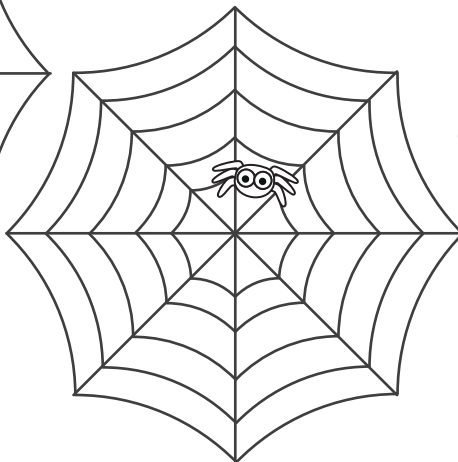

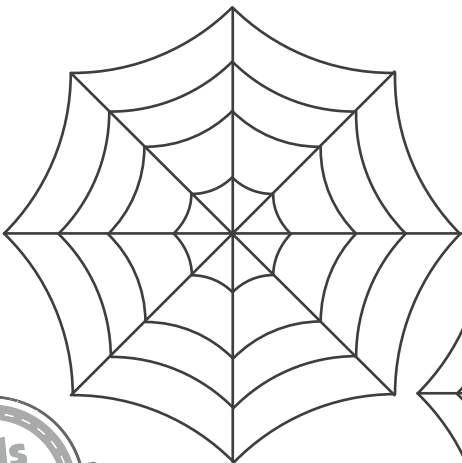

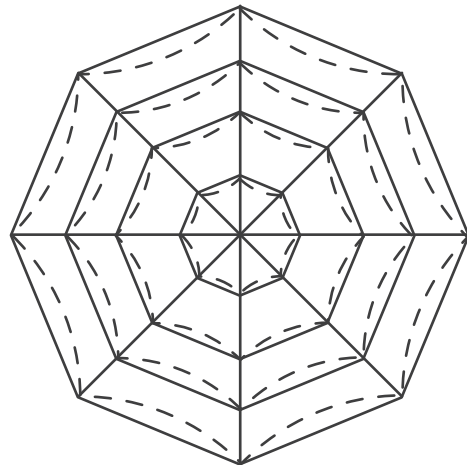

How to Draw Spiderweb

Draw more octagons each one closer to the center.

Replace the straight lines of the octagon with curved lines and erase the extra lines.

Wow! Amazing job. You can get creative and add different details.
